

# Fast React Systems - Specialist Planning & Sourcing Solutions for the Apparel, Textile & Footwear Industry

## *FastReact - A Global Sourcing Solution*

Successful sourcing in a fast moving Apparel, Footwear or Textile environment requires excellent planning and co-ordination.

A 'lack of visibility' and 'difficulties responding quickly with accurate information when customer requirements change' are typical concerns expressed by companies sourcing from third party suppliers. So why is that?

Increasingly, companies are realising that their existing, manual systems are no longer capable of meeting the increasing demand for fast information. In this environment, FastReact offers an alternative, which provides a much higher level of visibility and control.

### Functional Overview:

- Effective control of New Style Development
- Proactive critical path management with clear 'task diaries' and focused priorities for action
- Ease of monitoring purchase orders against suppliers and tracking these through all key stages
- Improved communication and coordination with suppliers, hence improved 'on time' start and delivery performance (including electronic updates from suppliers in a single, standardised format)
- Ease of use (ESSENTIAL FOR USER 'BUY IN')
- TOTAL VISIBILITY of all orders and their exact status, hence improved availability of information

### Typical Benefits:

- 'BUSINESS LEVEL' VISIBILITY, that is impossible with separate manual and spreadsheet systems
- Ability to reduce lead times through improved control - one version of the truth
- Reduced excess costs, due to lower air freight and late delivery charges
- More effective management of inventory levels
- OVERALL, IMPROVED BUSINESS PERFORMANCE, COST SAVINGS AND INCREASED COMPETITIVENESS (see customer testimonials)
- Access relevant information quickly
